In re:

SONY BMG CD
TECHNOLOGIES LITIGATION

Case No. 1:05-cv-09575-NRB

**DECLARATION OF MICHAEL L. KELLY IN SUPPORT OF
PLAINTIFFS' CLASS COUNSELS' APPLICATION FOR ATTORNEYS'
FEES AND REIMBURSEMENT OF EXPENSES**

1 I, Michael L. Kelly, declare and state as follows:

2 1. I am an attorney in good standing, duly licensed and admitted to the California
3 State Bar, 1978; California Supreme Court, 1978; Colorado State Bar, 1987; United States
4 Supreme Court, 1987; U.S. District Court, Central District of California, 1979; U.S. District Court,
5 Northern District of California, 1981; U.S. District Court, Eastern District of California, 1980; and
6 the U.S. Trust Territory of the Pacific Islands, 1987. I am a Senior Partner of Kirtland & Packard
7 LLP, counsel of record for Plaintiff John Maletta in John Maletta v. Sony BMG Music
8 Entertainment Corp. et. al., 05-CV-10637. A true and correct copy of the firm resume and a
9 representative list of comparable litigation is attached hereto as Exhibit "A" and incorporated by
10 reference herein.

11 2. I submit this declaration in support of Plaintiffs' Class Counsels' application for
12 attorneys' fees and reimbursement of expenses in the above-entitled matter. The testimony set
13 forth in this declaration is based on first-hand knowledge, about which I would and could testify
14 competently in open court if called upon to do so, and on contemporaneously-generated records
15 kept in the ordinary course of business.

16 3. The total number of professional hours expended in the litigation by Kirtland &
17 Packard, LLP is 156.30. The total lodestar amount for attorney, paralegal and professional staff
18 time expended by Kirtland & Packard, LLP in the course of the litigation, based upon current
19 rates, is \$68,593.50. The chart attached hereto as Exhibit "B" was prepared at my discretion and
20 presents a summary of the time spent from November 5, 2005 through March 20, 2006 by
21 attorneys, paralegals, and professional staff of the firm on the litigation. The chart includes the
22 name of each attorney, paralegal, and professional staff member who has worked on the case, his
23 or her current hourly billing rate, and the number of hours expended by each professional on this
24 matter. The time reflected in this declaration was time actually spent, in the exercise of reasonable
25 judgment, by the lawyers and staff involved. The attorneys and legal professionals identified in
26 Exhibit "B" spent time on matters that were essential to the prosecution and resolution of the
27 litigation, including relevant research, preparation of court documents, and related correspondence.
28 My firm was careful not to expend unnecessary hours and not to duplicate work done by others.

1 4. This firm expended a total of \$2,421.29 in unreimbursed expenses in connection
2 with prosecution of the litigation on behalf of John Maletta. The expenses incurred in this case are
3 reflected in the books and records of the firm. These books and records are prepared from expense
4 vouchers, check records, and other contemporaneously-recorded billing records, are an accurate
5 record of expenses incurred in this litigation. The chart attached hereto as Exhibit "C", also
6 prepared at my direction, details these expenses.

7 I declare under penalty of perjury under the laws of the United States of America and the
8 State of New York that the foregoing is true and correct

9 Executed this 24th day of March, 2006, at El Segundo, California.

ENVIRONMENTAL & TOXIC TORT

The last twenty-five years has seen a literal explosion of litigation in the areas of environmental and toxic tort law. Kirtland & Packard has been actively involved in all aspects of CERCLA claims and Insurance Coverage disputes pertaining to Environmental Cleanup and Toxic Torts. The firm has represented major manufacturers of asbestos products and other chemicals in personal injury claims.

Kirtland & Packard attorneys were lead counsel for several major insurers in the coordinated Asbestos litigation which was pending in the San Francisco County Superior Court throughout the 1980's. The firm also represented multiple defendants in the massive Stringfellow acid pits litigation in both the consolidated personal injury action involving over 5000 claimants and the federal court action wherein the United States and the State of California were seeking compensation for the actual cleanup of the Stringfellow site.

Attorneys from the firm have been involved in multiple fuel contamination claims. These claims have involved both below ground gasoline station storage tanks and large, above ground, fuel refinery storage facilities. The firm represented a major insurer in a claim arising out of alleged damage to a large refinery storage tank that took place during renovation work. The fuel leak and resulting underground plume impacted the aquifer of a local municipality. Resolution of the case required not only extensive knowledge of insurance coverage issues, but sophisticated approaches to liability analysis and regulatory compliance.

In underground storage tank litigation, the firm has not only been involved in related insurance coverage disputes, but also complicated liability claims involving multiple plumes from various alleged tank leaks impacting both private and municipal property. Resolution of such claims requires experience in insurance law, regulatory requirements and technical expertise in cleanup and damage analysis, including appropriate cleanup protocols and procedures.

The firm's attorneys have been retained by major corporations to perform analysis and research regarding environmental regulatory compliance with regard to companies under consideration for acquisition. Such endeavors have required the firm's lawyers to not only carefully review all applicable regulations, but to thoroughly investigate legal compliance and insurance coverage.
